Circular 27 of 2017 : CMS Advanced Broker Training in Eastern Cape, Western Cape and Kwazulu-Natal

This communique serves to **remind** you that the Council for Medical Schemes (CMS) will be hosting a one day consultative advanced broker training workshop for accredited healthcare brokers. This initiative is in response to a request by healthcare brokers who attended our induction workshops, asking for a more advanced broker training programme. The workshops will be hosted in Port Elizabeth, Durban and Cape Town at a cost of R800.00 per person. The topics for the workshops are outlined below:

- 1. *Scheme financial soundness***
- 2. *Scheme governance***
- 3. *PMB definition project***
- 4. *Healthcare Costs***
- 5. *Overview of Non-healthcare Costs***
- 6. *Review of the CMS appeal cases and Amendments to the FAIS Act***

Please click [here](#) to register and get all details with regards to the workshops.

Please note: The venue for the training will **ONLY** be communicated to delegates who have registered and confirmed attendance. As a pre-requisite for registration for the workshop, individual brokers are required to provide their Broker Registration number issued by the CMS. Failure to provide the Broker Registration number will automatically nullify your registration. Individuals who have already registered for the workshop and sent through their proof of payment, do not need to register again.

FPI members will be able to claim 6 knowledge Continuing Professional Development (CPD) points.

Kind regards

Dr Elsabé Conradie
Head: Stakeholder Relations
