## Circular 73 of 2019: CMS Trustee Development Programme launching in December

The Council for Medical Schemes (CMS), in partnership with the Gordon Institute of Business Science (GIBS) is pleased to introduce a new Trustee Development Programme for Board of Trustee (BoT's) members of medical schemes.

The Development Programme, pitched at NQF level 8 of complexity, will provide attendees with past and present developments in the medical schemes industry, while providing for robust discussions. The programme will also delve into the successes and failures of BoTs leading to curatorship of schemes, and the development of ethical leadership to curb Fraud, Waste and Abuse.

Due to the complexity, only delegates who have attended CMS' Induction Training for Trustees, CMS' Accredited Skills programme, will be eligible to enroll.

The launch of CMS' Trustee Development Programme will take place on 2 December 2019 at the GIBS campus, in Illovo and will feature an address by CMS' Chief Executive and Registrar, Dr Siphon Kabane. It will be followed by a panel discussion with Dr Nicholas Crisp, NHI Fund Manager, Dr Ayanda Ntsaluba, Group Executive Director, Discovery Health (former DG of Health), as well as Ms Mapato Ramokgopa: Director of the HMI.
